HARROLD'S

Spring = Annual

Professional Trade

Season 1939

DESCRIPTION OF THE HARROLD'S PEDIGREED STRAIN Line Of Giant Pansies

HARROLD'S PEDIGREED NOVELTIES: This mixture is made up from individual plant selections in our breeding department. It contains some of the finest specimens obtainable in the Pansy world today. Nearly every color and form that is most desirable is represented in this mixture.

Recommended where the unusual is desired.

HARROLD'S PEDIGREED POT PANSIES: A short growing giant type, which, if grown properly in a cool, well ventilated house, will make fine individual specimen plants for pot or box setting.

HARROLD'S PEDIGREED CUT-FLOWER PANSIES: A fine giant sort which, grown under similar conditions to those above, produces many fine flowers on stems 6 to 11 inches long. Wide color range.

HARROLD'S RUBY GIANTS: The finest selection of giant red Pansies we know of. Ranging from the red bronzes and orange scarlet, to brilliant deep mahogany. These are very desirable.

HARROLD'S AZURE GIANTS: A brilliant blue companion to the above variety. Giant size and very early, producing quantities of large sized flowers on long stems.

HARROLD'S GOLDEN GIANTS: A golden yellow companion to the above two varieties. Large flowers produced in profusion makes this sort desirable, and the distinctive dark center blotch adds much to its attraction.

HARROLD'S PEDIGREED SWISS GIANTS: Introduced by us in 1937 this is one of the most advanced strains of Swiss blood stock available today. Advanced in color, robust plant and early flowering habits it offers improvements which merit the wide acceptance it has enjoyed.

HARROLD'S PEDIGREED GIANTS: This variety we introduced nearly a decade ago and it has long proved its value to the trade. Its introduction marked a milestone in the breeding of Pansies of super giant size and today, modernized and kept up to date, it still is not surpassed in this class. For robust, early habit, good flower stem and outstanding flower size and colors this sort is still tops.

HARROLD'S PEDIGREED GIANT ART-SHADES:

A strain still further refined from our Harrold's Pedigreed Giants. Retaining the major advances of the parent variety it is of remarkable value because of its color range which is still more varied, especially in the unusual art coloring.

HARROLD'S PEDIGREED GIANT ART-SHADES:

ORCHID SELECTION- Still another strain from the original Harrold's Pedigreed Giants. This one is bred toward the unusual pastel and orchid colors and is remarkable for some of these colors, and the robust habit in this type of stock.

HARROLD'S ALL-AMERICAN BEDDING MIXTURE:

This is a composite mixture of varieties we make up exclusively from seeds grown in our own gardens. Eighty percent are Harrold's Pedigreed Strain varieties, while the other twenty percent is composed of seeds from specimen plants in our trial grounds; where tests of other principal varieties and strains are periodically grown for comparison. This mixture is unsurpassed among the standard mixtures for the variation of types and colors contained

HARROLD'S IMPROVED SWISS: A Harrold bred strain of this popular variety that is outstanding in size and coloring, as well as being much earlier than any other strain of the Swiss family with which we have compared it to date. In spite of the many "Improved Swiss" and "Super-Swiss" strains obtainable, we predict that you will not appreciate this variety until you have given this strain a trial. Compact habit.

HARROLD'S OREGON MIRACLE MIXED: This is the lowest priced of the genuine Harrold bred varieties. With large sized flowers and its wide color range, it is a sound value. It may successfully be used as a competitor of any other sort at near its price range; being superior to most of the stock in this price range. Do not, however, make the mistake of economizing through the use of this variety in a market that more modern stock can be sold in.

THIS SPECIMEN WAS over 4 inches in diameter. A well balanced color mixture grand size and fine plants of early habit identifies these.

OUR 1937 NOVELTY Harrold's Pedigreed Swiss Giants: The latest and most advanced strain of this popular group.

HARROLD'S *Pedigreed Swiss Giants*

This our principle 1937 Novelty which will be of interest to all Pansy growers, commercial as well as fanciers. As its name implies the stock is of the fancy type and has been bred from "Swiss" parents.

The chief drawback of the "Swiss" strains in the past has been the late flowering habits and a weakness of plant habit. These we believe we have substantially improved even over our old and tried standby in this class—our Harrold's Improved Swiss offered on page 2 and 6.

Flower color range is also somewhat advanced through additions of several exclusive new ones as well as widening the color range in the better known shades, has resulted in a more attractive coloring and the five blotched center is more prevalent than in most stock. Plant habit is compact and less inclined to leg out while the blooming period with us is but a few days later than our Harrold's Pedigreed Giants which are noted for their early flowering habits. Brightened colors has also added to the value of this sort as a subject for mass bedding, a feature of many "Swiss" strains which is entirely lacking because of dead and dark colors.

In size the flowers excell anything we have seen in this class to date and substance is somewhat improved although they are still not as heavy in substance as some of the Exhibition types. Size, of course, like with all Pansies, is dependent upon environment and culture. With us this has been excellent, ranging up to better than 4½ inches.

SEED PRICES

STANDARD QUALITY :Trade Packet, \$1.25; ⅛ oz., \$2.25; ¼ oz., \$4.25; ½ oz., \$8.25; 1 oz., \$16.00; 2 ozs., \$30.00

PLANT PRICES

SEEDLINGS: \$1.25 per 100; \$6.00 per 1000; 3,000 for \$16.00.

TRANSPLANTED: \$2.50 per 100; \$16.00 per 1000.

HARROLD'S PEDIGREED
GIANT ART-SHADES. The
finest combination of color,
flower size, and plant habit
in the exhibition group today
and very popular.

HARROLD'S PEDIGREED GIANT *Art - Shades*

Resulting from more than a third of a century of specialized Pansy experience, this variety has been bred from our HARROLD'S PEDIGREED GIANTS, and like its parent it has a compact very robust plant habit. The flower size, while possibly little larger than the parent stock at its maximum, is more consistent and we believe the average will be found quite a bit better. Flower form, of course, meets the Harrold strict standard. Flowers are symmetrical and of excellent substance, holding their graceful shape without floppiness.

It is in the coloring of this strain, however, where the greatest departure has been made; and it is because of this coloring that we have used the descriptive name for this variety. Many of the colors are so unusual to Pansies that we have ourselves never seen many of them until this stock was developed. Markings run strongly to novelty types, giving many unusual combinations. The colors run quite bit to the light and pastel shades although a balancing of darker shades makes the mixture very attractive. Whites are rare but a new absolutely pure yellow, without markings is included in this mixture along with a substantial number of other yellows. This makes an especially arresting color mixture for counter and basket as well as garden sale. You'll certainly want some of these this year.

SEED PRICES

STANDARD QUALITY: Trade packet, \$1.00; 1/8 oz., \$2.25; 1/4 oz. \$4.25; 1/2 oz., \$8.25; 1 oz., \$16.00; 2 ozs., \$30.00; pound \$160.00.
PEDIGREED QUALITY: \$2.00 per packet, about 750 seeds.

PLANT PRICES

SEEDLINGS: \$1.25 per 100; \$6.00 per 1000; 3,000 for \$16.00
TRANSPLANTED: \$2.50 per 100, \$16.00 per 1000.

Bowl is 8 inches in diameter. Note excellent form and texture.

HARROLD'S *Pedigreed Giants*

Since its original introduction this Giant Exhibition type variety has won wide acceptance and popularity on its outstanding merits. By the time it had reached its second year after introduction—the point where seed prices could be brought within commercial plant growing requirements—it had become our most popular variety in point of sales volume, both seeds and plants, and it has continued to maintain this position since that time.

The plant habit of this variety is distinctively robust and this, of course, is the basis upon which truly giant flowers of adequate texture to be most valuable must be built. Flowers have been produced from this sort that were 5 inches in diameter under ordinary garden production conditions here. Many 3 to 4½ inch flowers are produced under reasonable culture.

The early flowering and development habit of this variety usually makes it the first of the Harrold outdoor sorts to flower and, unlike so many large flowering sorts, the flowers have adequate texture to stand up and look one in the eye rather than being floppy as is so often the case. Flower stems are much longer than usual on so compact a growing plant and normally these are long enough to make fine cut bouquets.

The color range is very bright and varied lending unusual charm to mass bedding effects with this variety while the number of truly specimen plants is high enough that critical specimen plantings are easily made from these. We believe this the nearest ideal all round Pansy available today.

SEED PRICES:

STANDARD QUALITY: Trade packet, \$1.00; ⅛ oz., \$1.75; ¼ oz., \$3.25; ½ oz., \$6.25; 1 oz., \$12.00; 2 ozs., \$22.00; 4 ounces or more at the pound rate of \$120.00.

PEDIGREED QUALITY: Packet, \$2.00; 3 for \$5.00.

PLANT PRICES

SEEDLINGS: \$1.00 per 100; \$4.75 per 1000; 3,000 for \$12.00.

TRANSPLANTED: \$1.75 per 100; \$12.00 per 1000; 3,000—\$32.00.

Pansy Plants

HARROLD'S Pedigreed VARIETIES

Each year we grow and ship hundreds of thousands of these to every section of the United States. Our shipping season starts October 1st, and owing to our mild winter climate here, it is continuous throughout the winter until the close of the season the following April or May.

We have a very fine block of both seedlings and transplanted Pansies for spring delivery. Favorable, mild weather has developed plants of the best quality and larger plantings find us better prepared than last year to fill usually heavy spring demand. Don't, however, delay covering your needs as early as possible. Not only will early ordering avoid possible delay due to congested shipping schedule later, or shortage in some desired sort: but also Pansy plants travel more safely while weather is cool.

All of our Pansy plants are grown in open field beds making them perfectly hardy. We supply a stronger and more robust plant than is the prevailing average in the trade for this class of stock.

FOR VARIETY DESCRIPTIONS SEE PAGES 2—3—4—5

BE SURE YOU HAVE ENOUGH FINE PANSIES!

Pansies are an item that always sell well if you have quality stock like that produced by the HARROLD'S PEDIGREED VARIETIES. Many growers tell us their sales have increased 100% and more in volume and stock has brought premium prices since they adopted HARROLD'S PANSIES. There is potential profits in them for you, also, and right now is the time to lay the foundation for your participation in a profitable season next spring with seeds or plants.

Standard Strain Pansy Plants

STRONG PLANTS. FROM OPEN FIELD BEDS.

MIXTURES	See seed pricelist for fuller descriptions.	Price per 100	1000
DOUBLE CURLED. Novelty. Moderate size.....		\$1.00	\$4.75
ENGLEMANN'S GIANTS. Dark and light shades.....		1.00	4.75

SWISS PURE WHITE. Best pure white.....	1.00	4.75
SWISS YELLOW MASTER. Good pure yellow.....	1.25	5.00

Shipping weight ranges from 15 to 28 pounds per 1000. Shipments carry best by Express and take second class rate so that transportation costs are at a minimum.

Viola Plants

This group of stock is open field grown the same as our Harrold's Pedigreed Strain Pansy plants, and this results in the same fine plant and heavy root system. Only one size is available which is summer sown just as soon as new harvest seeds arrived. They are a nice size for transplanting and handled like Pansies, can be brought into flower for spring sales when they sell most readily.

THE SUPERB GEM VARIETIES

VARIETY	Price per 100		250
LAVENDER GEM: Brilliant lavender blue.....	\$2.50		\$5.00
JERSEY GEM: Compact violet blue.....	2.50		5.00
YELLOW GEM: Pure golden yellow.....	2.50		5.00
WHITE GEM: Finest white.....	2.50		5.00

THE BEST CORNUTA SORTS

ADMIRATION: Large dark blue.....	.75	1.50
APRICOT: Apricot yellow tinged orange.....	.90	1.80
ARKWRIGHT RUBY: Ruby red, dark center.....	1.00	2.00
BLUE PERFECTION: Large purple blue.....	.75	1.50
CHANTREYLAND: Pure apricot. Fine.....	1.00	2.00
LORD NELSON: Large violet purple.....	1.00	2.00
LUTEA SPLENDENS: Golden yellow.....	.75	1.50
PAPILIO DEEP VIOLET.....	.75	1.50
PAPILIO LIGHT BLUE.....	.75	1.50
PRIMROSE DAME: Primrose yellow.....	.75	1.50
IMPROVED SCOTCH BEDDING: Newest bedding hybrids of many colors.....	1.00	2.00
WHITE PERFECTION: Large flowered white.....	.90	1.80

Violas are again coming into favor and nearly every bedding plant retailer will find reasonable stocks profitable. You should try them if not already carried in stock.

AUTHORIZED WHOLESALE PANSY PLANT GROWERS

GROWING HARROLD'S PEDIGREED VARIETIES
UNDER ORIGINATORS AUTHORIZATION
FROM GENUINE ORIGINATORS SEEDS.

POPULAR DEMAND FOR THESE QUALITY VARIETIES HAS CREATED such a nationwide call for them that it has become necessary to make them available under the originators supervision through reliable and experienced plant growers at strategic locations throughout the United States. In perfecting this wider distribution, two factors have been held of prime importance. First we have endeavored to place these growing contracts with only reliable growers in order that the trade might be assured of quality plants. Second, each of these growers have contracted to supply plants under the Harrold name only from seeds which were supplied them direct from our gardens.

Following is an index of varieties which compose the Harrold's Pedigreed Strain line of Giant Pansies, keyed so that you can tell at a glance what varieties each of these growers can supply. The entire line is available direct from our gardens if you wish, or each grower listed below may supply the varieties credited to him in accord with the following lists.

PS—HARROLD'S PEDIGREED SWISS GIANTS.
PAS—HARROLD'S PEDIGREED GIANT ART-SHADES,
PP—HARROLD'S PEDIGREED POT PANSIES
CF—HARROLD'S PEDIGREED CUT-FLOWER PANSIES
GG—HARROLD'S GOLDEN GIANTS
AG—HARROLD'S AZURE GIANTS
RG—HARROLD'S RUBY GIANTS
PG—HARROLD'S PEDIGREED GIANTS
Our most popular mixture.
AA—HARROLD'S ALL-AMERICAN BEDDING MIXTURE
IS—HARROLD'S IMPROVED SWISS
OM—HARROLD'S OREGON MIRACLE MIXED

For brief description of each of the above see preceeding pages.

The following grower index gives a list of the varieties each may supply and is arranged alphabetically by States in order that you may select the grower nearest you who can supply the desired variety.

Each growers' varieties listed on line below name and address.

<i>State</i>	<i>City</i>	<i>Grower</i>	<i>Address</i>

VIRGINIA..	South Richmond..	W. S. Beadles & Son..	Route 10 PG—IS
WISCONSIN.....	Racine....	Benjamin Hansche...	Route 3 Box 151 AA

While we can not absolutely guarantee the stock supplied by the above growers we believe that more than usual care has been taken to assure in supplying stock of superior quality and it is with these facts in mind that we recommend them to you. It is suggested those interested in buying, write the growers selected, acertaining stock available and prices as it is the privilage of each grower to maintain an individual price schedule so long as it does not fall below an agreed minimum price.

Pansy and Viola Seeds

Plant these now and up into February for nice plants to sell in April and May. They may be started in a cool house and shifted outdoors by the time greenhouse space is at a premium, they are an economical item to grow and good stock gives good profits. Where climate is mild planting right outdoors is suitable.

Plan Now Those Spring Profit Crops

Planting time is nearly here again and it's high time to plan spring crops now. We planned our stock to meet your need months ago and can save you money to say nothing of rendering better service if you order now.

Stock Plants

DOUBLE GIANTS OF CALIFORNIA

Stocks of the California Double Giant strain has been a specialty with us for the past four years and we offer only the originator's strain of seeds and these plants are grown from them, of course. This is a group you should try this season if you have not already done so whether you buy plants or plant the seeds.

Perennial Plants

These are recommended to the southern grower and gardener for planting out in open beds, and in localities where weather is severe this stock may be bedded or potted in a cool to cold house, cold frame or protected bed to grow on into stock for the spring market. We sell thousands of these plants yearly to our own retail trade here at the gardens.

This Is The Idea Season

Now's the time to get those ideas going you have been planning for so long to boost those spring sales. As ideas their not worth a plugged nickle unless put to practical use and with the better outlook, now's the time to use them.

We've been developing ideas too; and ours all mean better quality and more efficient and valuable service to YOU.

HARROLD'S New Double PETUNIA *Oregon Beauty*

This new Double Pink Petunia excels in every way any variety of similar type we have ever grown. It's color a deep glowing true pink, and the extreme large size of the flowers produced in such profusion makes it one of the first subjects noticed by every visitor to our greenhouses.

We have grown this variety now for the past two years and experience with it as a retail item leads us to believe that it has no equal either for pot or bedding. The compact dwarf plant habit lends itself well to pot and box culture, while its symmetrical form recommends it highly as a border plant for bedding.

The resemblance of the flower to an extremely large pink Carnation makes an excellent substitute for these in design work, and if flowers are placed in water for two or three hours before being used they not only stand up well but outlast many more commonly used varieties in making up work. While stems are short like all Petunias they are adequate for wiring. Used for made up work they offer the advantage that they may be had in abundance in almost any season, and they make an excellent filler for use when other stock is scarce.

Because soil seasoned or potted plants stand shipment better than cuttings direct from sand we are supplying only plants from 2 inch pots or bench, priced as follows.

10 for \$1.00; 25 for \$2.00; 50 for \$3.75; 100 for \$6.00.

ORDERS FILLED IN STRICT ROTATION.

Our propagation of these are sold ahead until about February 25th

NO SEED OF THESE CAN BE SUPPLIED.

HARROLD'S

Southern - Oregon - Grown

Gladiolus Bulbs

All the stock offered here is grown in the Southern Oregon District that has made such a remarkable reputation for the quality of its bulbs in the past few years. Our stock is all grown on fresh clean ground each year, and the greatest care is exercised to produce a quality suitable to the requirements of the most critical professional grower. Our stock is disbudded to prevent drainage of energy from the bulbs caused when seeds are allowed to develop. NO COMMERCIAL FLOWERS ARE CUT OR SOLD FROM THE BULBS WE OFFER HERE.

The Oregon State department of agriculture is co-operating to the fullest possible extent with Oregon growers, to assure the shipment of pest free stock. A state-wide quarantine has been established covering treatment of both incoming, and outgoing shipments; and all Gladiolus stocks grown in Oregon must have passed the prescribed fumigation routine before they may be moved from the growers warehouse. This includes fumigation with Cynogas, at three applications spaced ten days apart; not only of the crop itself, but also the warehouse and all handling equipment. This routine is carried on under the personal supervision of a State Horticultural Inspector in every case. This care, coupled with periodic field inspections throughout the growing season by the same inspector, leaves little to chance as to the good health and pest free condition of the bulbs. Science offers no more complete assurance of stock that will be free from thrips and other pests. You may buy Oregon grown Gladiolus with confidence.

Our prices are based upon competitive market prices current at this time for an equal quality of bulbs. You may have quotations even from other local firms that are below these quoted herein, but in comparing them you should remember the following facts. First: we do not grow the Gladiolus we offer here ourselves. Second: being contract grown by reliable, experienced growers. With our stock obtained only after the bulbs are ready for shipment and after a season of rigid field inspection, we are in a position to select for you the absolute cream of this district's crop. Third: We have no cull bulbs which must be sacrificed because of low quality, neither are we compelled to sluff off varieties that are not of value to the professional grower just because we had the stock and did not feel we could afford to throw it away. Fourth: We can best serve you by supplying a premium quality bulb even at a slight premium in price as by so doing you are in turn enabled to produce a premium product.

TERMS OF SALE

All Gladiolus offered herein are quoted net, except as noted, on a basis of cash with order; or 50 percent cash with order, balance c. o. d. Prices are all made for shipment and delivery being made f. o. b. the offices of the transportation agency at Grants Pass, Oregon. Shipment in every case, unless specifically ordered otherwise, will be by Express collect. Shipment in this manner may safely be made in the most severe weather. If l. c. l. heater freight service is available at your station, however, delivery by that means may safely be had at a saving of nearly half compared with Express; providing shipment weighs 100 pounds or more. See your local freight agent and make sure this heater services is available to your station before ordering winter shipments that way.

Orders for future delivery are sold as of date of placement, at which time order will be graded and assembled, and stored in our warehouse subject to the shippers instructions. No additional charge will be made for this storage, but aside from using due care exercised in storing the sellers own stock, no responsibility for shrinkage or warehouse spoilage natural to such conditions will be assumed. We suggest that where possible, all shipments be made by March 15th, as shrinkage and spoilage after that date increases here to a noticeable degree due to the earliness of our season.

PLEASE NOTE

As our supply is not inexhaustable in spite of huge stocks, all offers are made subject to availability on arrival of orders and therefore, early booking of needs is to be recommended. In the event of shortage of any item as ordered, *we will send equal value in the next larger or smaller size if they are available. This, of course, only where specific instructions in this matter are not given. Variety substitution on instruction only.*

WE ARE PROUD TO OFFER GLADS SO EXCELLENT
This field picture shows some of our stock in bloom.

GRADE SIZES

Our Gladiolus Grade Size Schedule conforms with that generally in use in this trade, namely: Number one size is 1½ inch and up; Number two, 1¼ to 1½; Number three, 1 to 1¼ and Number four ¾ to 1 inch. Size one and two in the standard grade is commonly used for indoor planting while for outdoor work the smaller sizes often are found most suitable. Remember that unless ordered not to do so should we be out of size ordered next larger or smaller size to same value will be supplied.

QUANTITIES AND DISCOUNTS

Items quoted will not be supplied in quantities less than 50 cents per item, or orders for less than \$2.00. Where price is by the hundred 25 of a size and variety may be had at the hundred rate. Varieties quoted by the thousand will be supplied 200 of a size and variety at this rate. On these varieties when less than this quantity is desired add 10% to the thousand rate for the correct price in quantities less than 200 of a size and sort. The minimum in these varieties will be 50 bulbs per item.

PLACE ORDERS EARLY

Please don't neglect ordering until planting date and then blame your Seedsman for delayed plantings. I am sure it is the wish of all Seedsmen to render prompt and efficient service but many factors effect service conditions. Peak demand and seasonal rush are common cause of short delays in spite of same day shipping policy. You, in your own establishment, know the difficulty of maintaining an experienced staff adequate to meet maximum peak periods fully. Seedsmen are faced with the same problems and these will undoubtedly become more acute in future with the present trend in hour regementation.

Seedsmen are also faced with co-ordinating a production season that nature controls with mans planting schedules, which in this trade are often artifical. Being human, the Seedsman does the best he can under any given circumstance. Usually this results in excellent service and a little human co-operation helps a lot.

FLORIST SNAPDRAGONS ARE A SPECIALTY WITH US.

HARROLD'S
Florist = Strain
Flower Seeds

In this section we have endeavored to include a large number of the most popular varieties of flower seeds which are customarily grown by the professional florist. The greatest care has been exercised in the selection of our source of supply and we do not believe that any better seeds are obtainable from any source. In fact in most cases we offer strains which are supplied to us direct from the pre-eminent specialist in each line. In addition to the finest strains we also use the same care in storing, testing and packetting as with our own speciality, Pansies; and it is our desire to supply you with the ultimate in strain and seed quality at all times.

FLORISTS' CUT - FLOWER *Snapdragon* *Seeds*

Here is a group of stock of unusual value to florists with all varieties offered here time tested and of proven worth. Florist varieties are fine outdoor bedding stock.

TRADE PACKETS

We packet our Snapdragon seeds in generous trade packets which contain 1/64th ounce, or about 2300 seeds. Prices are identical on all varieties so that any assortment of varieties may be obtained at the quantity price quoted on trade packets.

Pound quantity price on this group 3 times 4 ounce price.			

Cineraria Seeds

Howard & Smith's CALIF. SUPER-GIANTS - Hybrida Grandiflora Nana -

An outstanding new strain of Cineraria hybrida grandiflora nana which produces free flowering plants 15 to 18 inches high. The huge flowers measure from 4 to 6 inches across with single petals 1 to 1½ inches wide. The most remarkable thing about this plant is the basal branching habit of the flower stems making a wonderfully formed flat topped cluster. Coloring is especially brilliant and magnificent.

Colors

Seeds from the originators.

BLUE SHADES—Sky blue to ultra-marine, some with white zones

CRIMSON AND CARMINE SHADES—Very rich.

SALMON SHADES—Delicate tints from light salmon to deep pink.

SUPERB BLEND—All the above shades along with many others not available separately, blended in a well-balanced mixture.

SEED PRICES: Trade Packets—about 500 seeds, \$1.00; 1/128 oz., \$2.00; 1/64 oz., \$4.00; 1/32 oz., \$7.50; 1/8 oz., \$20.00

FLORISTS' DOUBLE FLOWERING

Marigolds

We present here a new group in the Harrold's Pedigreed Strain line of seeds. These Marigold varieties have been selected with utmost care both as to strain and source and we believe them to be the best obtainable for the florist.

NEWER VARIETIES AND NOVELTIES

	1/8 oz.	1/2-oz.	1-oz
CROWN OF GOLD: Gold Medal 1937— Center of flower of short quilled petals with a collar of flat guard petals at base. Color orange, plants 2 1/2 ft. flowers 3 inches. The first known Marigold with orderless foliage.	\$.20	\$.60	\$1.00
GIGANTEA ORANGE SUNSET: NEW—1939 Exquisite deep orange producing large double flowers averaging 5 inches and over in diameter. Over 65 o/o fully double with sweet fragrance. A good subject for greenhouse forcing.....	.75	2.60	5.00
GIGANTEA SUNSET GIANTS: (Chrysanthemum flowered). This 1937 novelty will, beyond doubt, set a new standard in Marigolds. Combining the desirable characteristics of exceptional large size, showy colorings, and pleasant fragrance unlike that normally associated with Marigolds this will become an outstanding florist sort. Flowers are from 5 to 7 1/2 inches across on fine long stems and, while varying considerably in type, 60 per cent or more are fully double. Color range from light yellow to golden orange.....	.25	1.00	1.50
CHRYSANTHEMUM FLOWERED AMERICAN BEAUTY: Incurved type, fully double, free flowering, strong stems, height 3 feet. Colors— Orange Golden Orange, Yellow and Mixed.....	.25	1.60	2.90
DIXIE SUNSHINE: Large flowered golden yellow introduced in A. A. S., 1936. Very desirable.....	.25	1.00	1.50
DIXIE SUNRISE: An early strain of Sunshine that is 100 o/o double. Flowering by August 15th., it is useable even in the most northerly locations.....	.70	2.25	4.25
GUINEA GOLD: This popular florist variety has proven its worth. Color, golden orange.....	.15	.50	.90
YELLOW SUPREME: A lemon yellow companion to Guinea Gold. Fine characteristics for florist culture and a distinctive honey fragrance.....	.25	.55	1.00
HARMONY: Dwarf double French type. Most charming Scabiosa like flowers of golden yellow with a maroon-red border.....	.20	.50	.90
NEW DWARF ALL-DOUBLE ROYAL SCOT: An improved strain of this popular variety. Mahogany and gold in a uniform striped effect.....	.25	.90	1.75

WELL KNOWN STANDARD VARIETIES

Prices on larger quantities than those given herein, gladly supplied.

Florist Stocks

DOUBLE GIANTS OF CALIFORNIA:-

This new group should be given the attention and consideration of the florist who wishes to grow quality Stocks. They are of about the same habit as the Improved Bismarck group, but produce a longer spike, both in flower and stem. This strain produces a high percentage of doubles. Fine for indoor or outdoor growing.

We introduced this group to our patrons 5 years ago and supply only the originator's — Macdonald — seeds. Reports from growers using them has been most complimentary. This group will be found of double application, as when benched close, like the non-branching varieties, they can be made produce but a single mammoth flower spike. Benched in wider setting, habit is same as Bismarck only resulting flowers are much finer.

	Price per			
	1/8 oz.	1/4 oz.	1/2 oz.	1 oz.
GOLDEN GATE: Rich yellow.....	\$.50	\$1.00	\$1.90	\$3.50

GIANT DOUBLE, NON-BRANCHING COLUMN:-

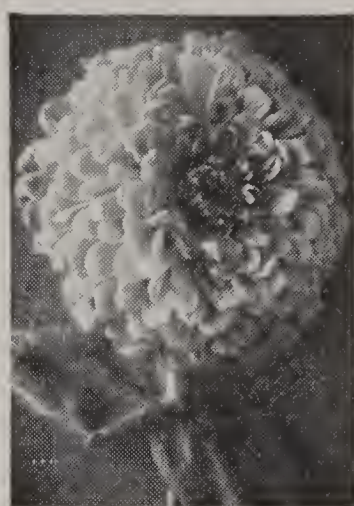

These are the non-branching strain producing one flower spike per plant. They are much used by florists due to the high quality of the cut produced, and because they may be grown satisfactorily in close spacing they make a profitable group to grow.

	Price per Tr. Pkt.			
	1/4 oz.	1/2 oz.	1 oz.	
BALL WHITE: Best white.....	\$.50	\$2.00	\$4.00	\$7.75

BODGER'S

Zinnia

Seeds

GOLD MEDAL

Pansies are our own growing specialty and every care is taken in their breeding to produce seeds of unexcelled quality. Unquestionably in this field we are able to supply superior quality. In selecting all the other items offered in this catalogue we have used the same care that you do in buying our Pansies. We have gone direct to the foremost specialist in each field for our source of supply, therefore we offer only BODGER'S ZINNIAS. Being supplied by this specialist and subjected to our usual rigid laboratory and garden tests we feel confident that you can not find better stock than is offered below.

ZINNIA FANTASY

FANTASY MIXTURE: Rounded double flowers composed of a mass of shaggy ray-like petals giving a most attractive appearance. Good stems. Colors from bright red and orange to delicate pink and cream.

Prices: 1/8 oz., 15c; 1/2 oz., 50c; 1 oz., \$.95; 4 ozs., \$3.00.

FREE AIR-MAIL SERVICE

On Seed Orders

READ CAREFULLY

Continuing our past policy of modern service, we will prepay additional Air-Mail post to any point in the United States on all seed items priced at the rate of \$2.50 per ounce or more; providing that your order is transmitted to us by paid Air-Mail and amounts to \$3.00 or more; without additional cost to you.

Otherwise, Air-Mail delivery may be obtained at the prevailing rate.

Saving in time to eastern points by using Air-Mail is about 50 per cent.

It is impractical, due to cost, to ship bulbs or plants Air-Mail.

CONDITIONS OF SALE

Quotations wholesale for the professional trade.

PRICES as quoted, are net on a basis of cash with order. All orders not accompanied by remittance, and from parties who have not established credit with us will be forwarded C. O. D. when for seeds.

ALL bulbs and plants CASH WITH ORDER except by special arrangement.

QUANTITIES: SEEDS—will be sold at quoted prices in quantity units no smaller than that specifically listed, PLANTS & BULBS—unless specifically listed differently the 100 price, where quoted, will apply to all quantities from 25 to 250 of a variety and size. 25 is the smallest item unit supplied at the 100 rate. The 1000 rate applies only to quantities of 250 or more of a variety and size. Amalgamation of items less than 250 of a size and kind, to gain the 1000 rate is not permissible.

REMITTANCE may be by any of the usual commercial methods. We do not accept stamps in place of remittance. Patrons outside the United States of America must remit in American funds, either by draft or money order. C. O. D. shipment or credit sales not made outside the U. S. A.

ALL ORDERS are received subject to supply available and crop conditions or any other situation beyond our control. Present business conditions also makes it necessary that we reserve the privilege to adjust our prices or terms without notice, to conform with varying conditions which may occur after this list is published.

SHIPMENT of seeds are all prepaid by insured post. Air-mail delivery service in the United States may be obtained without additional charge in accord with the conditions set forth above. All other stock is priced with delivery at the transportation office at Grants Pass, Oregon. Thereafter stock travels as the property of the purchaser and responsibility for safe delivery rests with transporting agency. In the event that loss is incurred in transite claim should be filed immediately with transport agency and full particulars of action be given us. While we can not insure such matters, our fullest co-operation will be given in obtaining proper adjustment in rare cases when such action may be necessary.

OUR RESPONSIBILITY: In view of the reasonable prices quoted herein, and the varied growing conditions under which the stock offered will be grown, it is manifestly impossible for us to warranty in any manner the crop resulting therefrom.

Ordering from this list will be definitely construed as your acceptance of these terms, and the limitation of our liability for any cause to an amount not exceeding the actual purchase price.

ON SEED items not listed here but offered in our last semi-annual catalogue, order may be made from it at the price quoted.
